

Amanda Erkkola

Amanda, our intern, is a Finnish year 11 student attending the Institut Internationale de Lancy (IIL) in Geneva, Switzerland. She is preparing for the International Baccalaureate (IB) and is looking to study languages and economics at higher level, with an ever-deepening interest in exploring politics and philosophy in university. Outside of school, she enjoys drama classes at Simply Theatre and used to play in the Geneva Girls Netball team (GGNA). She has moved a lot in her early childhood, her homes ranging from Helsinki, Finland to Accra, Ghana. Her exploration of several cultures has fuelled an increasing will for diversity in representation. Amanda enjoys spending time with her friends, which led to her admiration for Youth Underground's team spirit. Her role is to heighten awareness among the youth and inform on how they can act to help – from talk to action! We are excited to have her as part of our team!
